

Who's Who

Sometimes we share information about ourselves that we don't think is that personal. However, when you put one or two pieces of this information together, they can be linked, making it easy to figure out who the person is.

In this activity, try to figure out who the person is with just a few pieces of information they provided:

First name: Taylor
Gender: Female
Hobby: Singing
Who am I?: -----

Email: asgard@superhero.com
Username: avenger123
Hobby: -----
Who am I?: -----

First name: Aurora
Address: -----
Hobby: Sleeping
Who am I?: -----

School: East High School
Sport: Basketball
Hobby: Singing
Who am I?: -----

THINK BEFORE YOU SHARE!

Be careful when you give out any information about yourself online. Even when you think you are not providing PI, you may be providing just enough information for someone to figure out who you are, when you don't care for anyone to know.

DID YOU KNOW?

Did you know that your photos, videos and voice recordings that you upload are considered PI? Think before you post and make sure you have your parent's permission!
